- ❖ Contribution

In the next few minutes you’ll learn how aligned you are with your life purpose or, if not, what are the missing pieces that are keeping you from fully experiencing your purpose.

First go back and re-read your answers for a few minutes. I want you to contemplate all the “Always” answers. It shows that you are confident and committed in these areas. On the other hand, I would like you to pay close attention to the “Never” answers you have. Please take some time to understand why you answered “Never” and what you could do to make changes.

57 – 64: Congratulations! You’re living your life’s purpose. Keep polishing it!

49 – 56: Your life is somewhat satisfying. There is room for progress and development to enhance the quality of your life.

33 – 48: You have a foundation for finding and living your purpose. The next step would be to keep building on the positive aspects and re-evaluate the points in your life that are not working for you. Be patient and gentle with yourself and you will manifest the life you are meant to lead.

16 – 32: Looks like it’s time for a change. You are out of alignment in your life and holding yourself back from your life’s purpose. You may lack the insight and knowledge you need to create the life you always desired.
